Nordik Spa-Nature | Winnipeg: the construction is started!

Winnipeg, August 29th 2012 – After spending several months perfecting the plans, we are pleased to announce the beginning of construction of the Nordik Spa-Nature in Winnipeg. The spa, located on the Crescent Drive golf course, will open in spring 2013.

The beginning of the construction was delayed because we wanted to add several items to improve the experience of our clients, and thus exceed expectations. In addition, our budget has been revised upwards from 6.5 million to 8.5 million dollars.

"Building a spa is always a challenge itself, and we are confident that we have the best team to build our second Nordik Spa-Nature.", said Martin Paquette, President and Owner of Nordik Spa-Nature.

The opening of the Nordik Spa-Nature in Winnipeg will create more than 50 new jobs, and about 85 at maturity, which will have a positive impact on the regional economy. In addition, since it is Nordik Spa-Nature's policy to support and get involved in the communities in which it is established, companies and local suppliers will also benefit from the economic impact.
